End User License Agreement
Please read the following important information before continuing.
Arcserve (USA), LLC and/or its affiliates or subsidiaries ("Arcserve")
End User License Agreement (the "Agreement") for the Arcserve software product that is being installed as well as the associated documentation and any SDK, as defined below, included within the product ("the Product").
Carefully read the following terms and conditions regarding your use of the Product before installing and using the Product. Throughout this Agreement, you will be referred to as "You" or "Licensee."
By selecting the "I accept the terms of the License Agreement" radio button below, and then clicking on the "Next" button, you are
(I) Representing that you are not a minor, and have full legal capacity and have the authority to bind yourself and your employer, as applicable, to the terms of this Agreement;
(II) Consenting on behalf of yourself and/or as an authorized representative of your employer, as applicable, to be bound by this Agreement.
By selecting the "I do NOT accept the terms of the License Agreement" radio button below, and then clicking on the "Cancel" button, the installation process will cease.
1. Arcserve (or where the Product is being supplied outside of North America the Arcserve subsidiary identified after Section 15 below for the country in which the Product is being supplied, and in such instance Arcserve shall mean the Arcserve subsidiary identified) provides Licensee with one copy of the Product, for use by a single user, or the quantity designated as the authorized use limitation ("Authorized Use Limitation") on any Order Form (defined below) referencing the terms of this Agreement or CD sleeve included within the Product box. Arcserve licenses the Product to Licensee on a non-exclusive basis, pursuant to the terms of this Agreement as well as the terms of (a) any Arcserve Order Form or Registration Form which has been signed by Licensee and Arcserve; or (b) a License Program Certificate which is provided by Arcserve to Licensee, as applicable (each hereafter referred to as the "Order Form").
2. If the Product is an alpha or beta version of the program, hereinafter referred to as the "beta program" or "beta version" and not generally available to date, Arcserve does not guarantee that the generally available release will be identical to the beta program or that the generally available release will not require reinstallation. Licensee agrees that if it registers for support or if otherwise required by Arcserve, Licensee shall provide Arcserve with specific information concerning Licensee's experiences with the operation of the Product. Licensee agrees and acknowledges that the beta version of the Product (a) is to be used only for testing purposes and not to perform any production activities unless Arcserve shall have otherwise approved in writing and (b) has not been tested or debugged and is experimental and that the documentation may be in draft form and will, in many cases, be incomplete. Licensee agrees that Arcserve makes no representations regarding the completeness, accuracy or Licensee's use or operation of the beta version of the Product. BETA PRODUCTS ARE PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR REPRESENTATIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR REPRESENTATIONS OF TITLE OR NON-INFRINGEMENT. If Licensee is also a Tester of the beta version of the Product (as "Tester" is defined by the Beta Testing Agreement that was agreed to by Licensee during the registration process before obtaining the beta version of the Product), Licensee agrees that the terms of this Agreement are in addition to, and do not supersede, the terms of the Beta Testing Agreement.
If the Product is a 'No-Charge' (free) version of the UDP software for workstations, then this edition runs in a limited capability mode, with email-only support and maintenance for all languages that UDP v5 presently supports (except there is no support or maintenance whatsoever for Chinese (Simplified & Traditional) and Italian), and you can upgrade to a paid version of the Product to enable functions that are disabled in the 'No-Charge' version.

Arcserve Backup Setup

License Agreement
Please read the following license agreement carefully.

- License Agreement
- License Key
- Methods
- Configuration
- Setup Summary

IMPORTANT - READ CAREFULLY!

THIS PRODUCT MAY CONTAIN SOFTWARE PROVIDED BY THIRD PARTIES WHO REQUIRE AGREEMENT TO ADDITIONAL TERMS AND CONDITIONS PRIOR TO INSTALLATION OF THIS PRODUCT. THESE ADDITIONAL TERMS ARE PRESENTED BELOW AFTER THE Arcserve END USER LICENSE AGREEMENT.

Arcserve (USA), LLC and/or its affiliates or subsidiaries ("Arcserve")

End User License Agreement (the "Agreement") for the Arcserve software product that is being installed as well as the associated documentation and any SDK, as defined below, included within the product ("the Product").

Carefully read the following terms and conditions regarding your use of the Product before installing and using the Product. Throughout this Agreement, you will be referred to as "You" or "Licensee."

By clicking on the "I agree" button below, you are

(I) Representing that you are not a minor, and have full legal capacity and have the authority to bind yourself and your employer, as applicable, to the terms of this Agreement;
(II) Consenting on behalf of yourself and/or as an authorized representative of your employer, as applicable, to be bound by this Agreement.

By clicking on the "I disagree" button below, the installation process will cease.

1. Arcserve (or where the Product is being supplied outside of North America the Arcserve subsidiary identified after Section 15 below for the country in which the Product is being supplied, and in such instance Arcserve

I agree I disagree Copy Print

YOU MUST SCROLL DOWN TO READ THE ABOVE TERMS AND CONDITIONS BEFORE YOU CAN CHOOSE THE APPROPRIATE STATEMENT OF AGREEMENT

Target Host: [SINGLEINSTALL]

Specify an installation type

- Express
- Custom
  - Arcserve Manager (Console)
  - Arcserve Stand-alone Server
  - Arcserve Primary Server
  - Arcserve Member Server
  - Other

Important: By default, Setup will install Agent for Open Files for Windows. You must restart the system after the installation is complete.

This option installs an Arcserve Stand-alone Server, the Client Agent for Windows, and agents that protect the applications that Setup detects in your environment (for example, the Agent for Microsoft Exchange and the Agent for Microsoft SQL Server). The Express installation option simplifies the installation process by installing the Arcserve Backup products and components that you need to protect your backup environment.

Database and Application Support

- CA ARCserve Backup has application-specific agents to support all the leading applications, such as Microsoft Exchange Server 2013, Microsoft SharePoint Server 2013, Lotus Domino Server 8.5, and many others. In addition, you can restore Microsoft SharePoint Server 2007/2010/2013 data at object level granularity. With this capability you can restore Microsoft SharePoint Server documents, images, tasks, discussion boards, and so on.

Arcserve Backup Setup

Firewall Registration

Firewall Registration

Arcserve needs to register the following Services/Programs to Windows Firewall as Exceptions.

Service and Program	Status	Path
CASDBEngine	will be added to Firewall Exceptions	C:\Program Files (x86)\CA\ARCserve Bac...
CASDiscovery	will be added to Firewall Exceptions	C:\Program Files (x86)\CA\SharedCompo...
CASJobEngine	will be added to Firewall Exceptions	C:\Program Files (x86)\CA\ARCserve Bac...
CASMessageEngine	will be added to Firewall Exceptions	C:\Program Files (x86)\CA\ARCserve Bac...
CASMgmtSvc	will be added to Firewall Exceptions	C:\Program Files (x86)\CA\ARCserve Bac...
CASportmapper	will be added to Firewall Exceptions	C:\Program Files (x86)\CA\SharedCompo...
CASSvcControlSvr	will be added to Firewall Exceptions	C:\Program Files (x86)\CA\ARCserve Bac...

Allow Setup to register Arcserve Services/Programs to Windows Firewall as Exceptions.

Please choose network location types:

- Domain: Networks at a workplace that are attached to a domain
- Home/Work(Private): Networks at home or work where you know and trust the people and devices on the network
- Public: Networks in public places such as airports or coffee shops

Skip the Arcserve Services/Programs registration to Windows Firewall as Exceptions.

Caution! If you skip this step, Arcserve Backup may not communicate properly.

Arcserve Backup Agent Deployment Installation

Installation

Installation

Your Arcserve Backup installation is complete.

You can open the Arcserve Backup Manager Console to manage your backup servers while Setup installs Agent Deployment setup files.

This utility lets you install the Agent Deployment setup files on the Arcserve Backup server.

Agent Deployment lets you install and upgrade Arcserve Backup agents on remote hosts without using the installation media.

The Agent Deployment setup files require approximately 1.3 GB of free disk space on the target server.

Destination path: C:\Program Files (x86)\CA\ARCserve Backup\Packages\AgentDeploy\

Do one of the following:

- Click Continue to install the Agent Deployment setup files.
- Click Cancel if you do not want to install the Agent Deployment setup files.

Note: If you click Cancel, you must provide the installation media when you use Agent Deployment to install and upgrade agents on remote hosts.
